## Footnotes:

1. Crown Copyright applies unless otherwise stated.
2. The dimensions of deprivation used to classify households are indicators based on the four selected household characteristics:  
Employment (any member of a household not a full-time student is either unemployed or long-term sick),  
Education (no person in the household has at least level 2 education, and no person aged 16-18 is a fulltime student),  
Health and disability (any person in the household has general health bad "or very bad" or has a long term health problem), and  
Housing (Household's accommodation is ether overcrowded, with an occupancy rating -1 or less, or is in a shared dwelling, or has no central heating).  
A household is classified as being deprived in none, or one to four of these dimensions in any combination.
