Footnotes:

1. Crown Copyright applies unless otherwise stated.
2. The information in this table is produced using both a person's place of work and their method of travel to work and is comparable with 2001. For example, a person who has indicated their place of work as their home address and said that they travel to work by driving a car or van (eg visiting clients) appears in the category "Work mainly at or from home", as was the case in 2001. This compares with QS701EW which solely uses a person's method of travel to work. In the above example, the person would appear in the category "Driving a car or van".
3. This table supersedes CT0015EW and CT0045 which contains the same data for wards and local authorities and higher geographies only.
4. Equivalent 2001 Census Table is Univariate Statistics Table UV039.

3. This treatment is the same as in QS212EW so numbers in this table will sum to those in QS212EW. KS205EW classifies people in all categories that were applicable to them, so people who held more than one passport could be counted in KS205EW than once. The numbers in table CT0060EW will therefore not sum to the numbers in table KS205EW.
